About me

I've always been in love with computers. My ever-lasting **passion** to broadly understood **information technologies** make me feel at home in this environment. **Currently working** as a **Frontend Developer** in a company from Warsaw, looking for the next step. **Studying front-end technologies for nearly two years** has been a great adventure so far, and the deeper it goes, the more enjoyable it gets. Lots of collaborations, **code-reviews** and ideas exchanged with **my mentor** help me get better every single day.

Tech stack

- **Javascript ES6+** - async/await, hoisting, event-loop, arrow functions, event bubbling, consts & lets etc.
- **TypeScript** - basic knowledge, usage of types, interfaces, partials, etc.
- **React & Redux** - class & function components, hooks, HoC, multiple related libraries (react-router, luxon, moment.js)
- **CSS-in-JS & SCSS** - styled-components, theme-ui, chakra-ui, styled-system
- **HTML & CSS** - semantics, seo, performance, multiple browser support
- **Webpack** - basic knowledge
- **Git, GitHub, GitLab, BitBucket** - basic knowledge, teamwork, merging, committing, branching, pull-requests
- **REST API & GraphQL with Apollo** - ability to handle communication with REST APIs through HTTP Protocol and to construct GraphQL queries
- **Good research skills** - good english skills and my curiosity make me a very good researcher
- **Figma, Zepplin, Gimp** - basic knowledge
